GENERAL INSTRUCTIONS:

- All questions are compulsory.
- Section A contains 20 questions (from 1-20) of Mathematics.
- Section B contains 25 questions (from 21-45) of Science.
- Section C contains 10 questions (from 46-55) of Social Science.
- Section D contains 18 questions (from 56-73) of English.

	Mathematics	
Q.No.	Questions	Answers
	Answer the Following Questions.	
1.	The value of $\left(-\frac{7}{2}\right) + \left(-\frac{8}{3}\right) + \frac{7}{12}$ is	
2.	If the perimeter of rectangle is 48 cm and its breadth is	
	6 cm, then the area of rectangle is	
3.	In the given fig. if $\angle A = 90^{\circ}$, find $\angle BDE$	
	C B D A B	

5. Name the property under which the following multiplication is done: $-\frac{11}{28} \times \frac{2}{7} = \frac{2}{7} \times \left(-\frac{11}{28}\right)$ 6. What number will be obtained when $\frac{6}{13}$ is multiplied by reciprocal of $-\frac{7}{16}$ 7. 15 men can build a wall in 42 hours, how many workers will be required for the same work in 30 hours 8. Rekha bought a saree for Rs. 1240 and sold it for Rs. 1147. Find loss percent 9. In a parallelogram ABCD if $\angle A = 70^{\circ}$ and $\angle B = (2x + 40)^{\circ}$, the value of x is 10. Find the area of the triangle whose height is 28 cm and the base is $\frac{1}{4}th$ the length of the height	
 6. What number will be obtained when 6/13 is multiplied by reciprocal of -7/16 7. 15 men can build a wall in 42 hours, how many workers will be required for the same work in 30 hours 8. Rekha bought a saree for Rs. 1240 and sold it for Rs. 1147. Find loss percent 9. In a parallelogram ABCD if ∠A = 70° and ∠B = (2x + 40)°, the value of x is 10. Find the area of the triangle whose height is 28 cm and 	
What number will be obtained when $\frac{1}{13}$ is multiplied by reciprocal of $-\frac{7}{16}$. 15 men can build a wall in 42 hours, how many workers will be required for the same work in 30 hours $\frac{1}{13}$. 8. Rekha bought a saree for Rs. 1240 and sold it for Rs. 1147. Find loss percent $\frac{1}{13}$. 9. In a parallelogram ABCD if $\angle A = 70^\circ$ and $\angle B = (2x + 40)^\circ$, the value of x is $\frac{1}{13}$. 10. Find the area of the triangle whose height is 28 cm and	
 7. 15 men can build a wall in 42 hours, how many workers will be required for the same work in 30 hours 8. Rekha bought a saree for Rs. 1240 and sold it for Rs. 1147. Find loss percent 9. In a parallelogram ABCD if ∠A = 70° and ∠B = (2x + 40)°, the value of x is 10. Find the area of the triangle whose height is 28 cm and 	
workers will be required for the same work in 30 hours ————. 8. Rekha bought a saree for Rs. 1240 and sold it for Rs. 1147. Find loss percent 9. In a parallelogram ABCD if $\angle A = 70^{\circ}$ and $\angle B = (2x + 40)^{\circ}$, the value of x is 10. Find the area of the triangle whose height is 28 cm and	
8. Rekha bought a saree for Rs. 1240 and sold it for Rs. 1147. Find loss percent 9. In a parallelogram ABCD if $\angle A = 70^{\circ}$ and $\angle B = (2x + 40)^{\circ}$, the value of x is 10. Find the area of the triangle whose height is 28 cm and	
Rs. 1147. Find loss percent 9. In a parallelogram ABCD if $\angle A = 70^{\circ}$ and $\angle B = (2x + 40)^{\circ}$, the value of x is 10. Find the area of the triangle whose height is 28 cm and	
Rs. 1147. Find loss percent 9. In a parallelogram ABCD if $\angle A = 70^{\circ}$ and $\angle B = (2x + 40)^{\circ}$, the value of x is 10. Find the area of the triangle whose height is 28 cm and	
9. In a parallelogram ABCD if $\angle A = 70^{\circ}$ and $\angle B = (2x + 40)^{\circ}$, the value of x is 10. Find the area of the triangle whose height is 28 cm and	
$\angle B = (2x + 40)^{\circ}$, the value of x is 10. Find the area of the triangle whose height is 28 cm and	
10. Find the area of the triangle whose height is 28 cm and	
the base is $\frac{1}{4}th$ the length of the height	
11. The value of $[(-3)^{-1}]^{-1} \div 3^2$ is	
12. In a scout camp, there is food provision for 300 cadets for 42 days. If 50 more persons join the camp, for how many days will the provision last	
13. If $ab = 5$ and $a + b = 3$, then value of $a^2 + b^2$	
14. The factors of $3x^2 + x - 2$ is	
The area of a circle is $154 cm^2$. Then the radius of	
circle is $\left(\pi = \frac{22}{7}\right)$	
16. Statement 1 (S₁): Sum of two integers is always an	
integer.	
Statement 2 (S ₂): Addition of integers follow the	
commutative property.	
(a) Only S ₁ is correct.	
(b) Only S ₂ is correct.	
(c) Both S ₁ and S ₂ are correct.	
(d) Both S ₁ and S ₂ are incorrect.	

17.	Statement 1 (S₁): Value of $(y-3)^2$ is y^2-9 .	
	Statement 2 (S₂): Value of $(y-4)(y-2)$ is y^2-8 .	
	(a) Only S ₁ is correct.	
	(b) Only S ₂ is correct.	
	(c) Both S_1 and S_2 are correct.	
	(d) Both S ₁ and S ₂ are incorrect.	
	Case study (Q.18 - Q.20)	
	Based on the given information, answer the following	questions.
	Sohan wants to prepare a chart on education of children	en for a social work campaign. The
	chart is in the shape of a parallelogram ABCD with AB =	5 cm, BC = 6 cm and $\angle D = 85^{\circ}$
18.	What will be the measurement of $\angle A$	
19.	What will be the measurement of $\angle B$	
20.	What will be the sum of the side AD and DC i.e.	
	AD+DC=	
	Section-B	
	Science	
	Answer the following:	
21.	Answer the following: Which gas is formed, during incomplete combustion of	
21.		
21.	Which gas is formed, during incomplete combustion of	
	Which gas is formed, during incomplete combustion of petrol and diesel?	
22.	Which gas is formed, during incomplete combustion of petrol and diesel? What is the SI unit of pressure?	
22.	Which gas is formed, during incomplete combustion of petrol and diesel? What is the SI unit of pressure? What is the function of the ribosomes?	
22. 23. 24.	Which gas is formed, during incomplete combustion of petrol and diesel? What is the SI unit of pressure? What is the function of the ribosomes? Name the agent that carry malaria parasite?	
22. 23. 24.	Which gas is formed, during incomplete combustion of petrol and diesel? What is the SI unit of pressure? What is the function of the ribosomes? Name the agent that carry malaria parasite? Name the type of short season crop grown between	
22. 23. 24.	Which gas is formed, during incomplete combustion of petrol and diesel? What is the SI unit of pressure? What is the function of the ribosomes? Name the agent that carry malaria parasite? Name the type of short season crop grown between Kharif and Rabi seasons.	
22. 23. 24. 25.	Which gas is formed, during incomplete combustion of petrol and diesel? What is the SI unit of pressure? What is the function of the ribosomes? Name the agent that carry malaria parasite? Name the type of short season crop grown between Kharif and Rabi seasons. Fill in the blank.	
22. 23. 24. 25.	Which gas is formed, during incomplete combustion of petrol and diesel? What is the SI unit of pressure? What is the function of the ribosomes? Name the agent that carry malaria parasite? Name the type of short season crop grown between Kharif and Rabi seasons. Fill in the blank. Charge balloon will get by charged balloon	
22. 23. 24. 25.	Which gas is formed, during incomplete combustion of petrol and diesel? What is the SI unit of pressure? What is the function of the ribosomes? Name the agent that carry malaria parasite? Name the type of short season crop grown between Kharif and Rabi seasons. Fill in the blank. Name the agent that carry malaria parasite? Name the type of short season crop grown between Kharif and Rabi seasons. Fill in the blank. Charge balloon will get by charged balloon The kind of plant grown and cultivated at one place on large scale is called	

Case study (Q.31 - Q.33)Based on the given information, answer the following questions. A great variety of plants and animals exist on earth. They are essential for the well-being and survival of mankind. To preserve biodiversity, to prevent extinction of endangered species, and to maintain ecological balance in nature, wildlife and forests should be conserved. Habitat is a place in environment where an organism lives. Today, a major threat to survival of these organisms is deforestation. We know that deforestation means clearing of forests and using that land for other purposes. Trees in the forest are cut for many purposes. Some natural causes of deforestation are forest fires and severe droughts. The answer to deforestation is reforestation. Reforestation is restocking of the destroyed forests by planting new trees. The planted trees should generally be of the same species which were found in that forest. We should plant at least as many trees as we cut. Reforestation can take place naturally also. 31. Name the first reserve forest of India. 32. Which book provide all the information about the endangered species. 33. Name the plants and animals found in a particular area? Write T for True & F for False. (Q.34-Q.35) 34. The main carbon component of coal is carbon dioxide. 35. Winter crops are known as Rabi crop. Give one word for: 36. A force of 15 Newton is applied on an area of 2 m². Compute pressure being applied to the area. Also mention the unit of pressure 37. which gas is mainly responsible for ozone depletion. 38. Name the force that causes wear tear of types of moving vehicle. 39. Name the part of eye that gives colour to eye. 40. Which bacteria promotes the formation of curd Solve the following questions. 41. Which of the following will catch fire easily and why

42.	In the given figure P and Q are metal balls hanging	
	from the nylon thread when a negative charge rod is	
	placed between them P is repelled and Q is attracted by	
	the rod because P and Q	
43.	Identify the organism shown.	
44.	Name the phenomenon shown is above cycle.	
	D C	
45.	Find the angle between the incident ray and reflected	
	ray.	
	A N N N N N N N N N N N N N N N N N N N	
	Section-C	
	Social Science	
	Give one word for:	
46.	What type of government India practiced?	
47.	In a monarchy, citizens choose their leaders so that	
	they can exercise power with responsibility on the	
	citizen's behalf. (True/False)	
48.	Who helped Colin Campbell to rescue the British holed	
	up in the residency of Lucknow?	
49.	Name the able commander- in chief of Nana Saheb who	
	led the revolt in Kanpur.	

50.	Identify the given image.		
51.	Mention some public facilities that only the		
	government can provide and maintain.		
52.	Viticulture or Viniculture is related to what?		
	Case study (Q.53 - Q.55)		
	Based on the given information, answer the following questions.		
	Letters and memos that moved from one branch of the administration to another in the		
	early years of the nineteenth century can still be read in the archives. You can also study		
	the notes and reports that district officials prepared or the instructions and directives that		
	were sent by officials at the top to provincial administrators.		
	In the early years of the nineteenth century, these documents were carefully copied out and		
	beautifully written by calligraphists – that is, by those who specialised in the art of beautiful		
	writing. By the middle of the nineteenth century, with the spread of printing, multiple		
	copies of these records were printed as proceedings of each government department.		
53.	Who was calligraphists?		
54.	What made it easy to get the multiple copies of record?		
55.	What were these letters and memos that moved from		
	one branch of the administration to another?		
	Section-D		
	English		
	Read the passage given below:		
	The stock taking done at the first national convention on consumer protection served to		
	highlight the areas that called for special attention to sustain the momentum of the		
	movement as genuine forum for safe guarding the people's interests.		
	Spreading awareness about the rights of the consumers and the relief open to them in case		
	they did not get their money's worth of goods and services has rightly been identified as the		

first priority. While this may not be a difficult task in urban areas, where the movement is concentrated at present, taking it to the vast rural hinterland calls for a multi-media approach in which radio and television have a crucial role to play.

The involvement of the 500 odd consumer organisations in the country in publicising the concept of fair trade practices and the remedies available against their violation will prove rewarding, if the message is conveyed through village bodies.

Government efforts remain confined at best to setting up the infrastructure after the formal launch of the movement with the enactment of the Consumer Protection Act. The mounting backlog of cases in consumer courts, points to the need for toning up the district level redressal machinery.

The main objective of the movement is the creation of a culture that denies place in the market for products that are not consumer friendly.

This is possible only if consumer bodies take over the watchdog role performed by the Government till now and exercise social control over the market to see that the benefits of liberalisation are not repeated by traders alone. But the plea to industry to exercise self regulation and maintain minimum standards of quality and devise appropriate pricing is bound to go unheeded unless strict measures are taken to ensure compliance.

	Based on your understanding of the passage, choose the appr	ropriate option:
56.	The first national convention on Consumer Protection has	
	(a) given it a momentum	
	(b) spread awareness about consumer rights	
	(c) highlighted the areas for special attention	
	(d) specified in relief open to the consumer	
57.	Consumer Protection Act proposes to give the consumer	
	protection against	
	(a) cheating by selling substandard goods	
	(b) denial of relief if the product is not up to the mark	
	(c) highly priced substandard goods	
	(d) not getting his money's worth	
58.	Government contributed to the Consumer Protection	
	Movement by	
	(a) enactment of the Consumer Protection Act	
	(b) setting by infrastructure	
	(c) clearing the backlog cases in the consumer court	
	(d) toning up a district level redressal machinery	

59.	Spreading Consumer Protection Movement to the rural areas
	needs
	(a) message to be conveyed by village bodies
	(b) consumer organisation to canvass this
	(c) official patronage
	(d) a multi-media approach
60.	Role of consumer bodies is
	(a) to exercise social control over the market
	(b) to make a plea of industry to exercise self control
	(c) to function as a watchdog
	(d) to maintain minimum standards of quality
	Fill in the following blanks given below choosing the most appropriate options from
	the ones that follow.
	Nearly 100 million years ago, (61) the middle of what is now Mongolia, there was a
	series of events (62) a massive volcanic eruption. The ashes (63)
	scattered over the wet soil of the land (64) sticky mud. Meat-eating dinosaurs and
	other creatures in the area looking for food (65)an early and sudden death as they
	sank in the mud.
61.	(a) in (b) on (c) over (d) at
62.	(a) include (b) includes (c) including (d) will include
63.	(a) those (b) that (c) which (d) thus
64.	(a) form (b) formed (c) forming (d) forms
65.	(a) meet (b) meeting (c) meets (d) met
66.	Unscramble the following word and write the correct one:
	DEAH
67.	In the following question, sentences have been divided into
	parts. The first is given and the remaining four parts named
	as P, Q, R, S are jumbled. Rearrange the parts P, Q, R, S to
	form meaningful sentence.
	I keep on flapping my big ears all day
	P: They also fear that I will flip them all away.
	Q: But children wonder why I flip them so.
	R: I flap them so to make sure they are safely there on either
	side of my head.
	S : But I know what I am doing.
	The correct sequence should be:
	(a) SRQP (b) QPSR (c) QPRS (d) PSRQ

68.	In the following question, some parts of the sentence have	
	been jumbled up. You are required to rearrange these parts	
	which are labelled P, Q, R and S to produce the correct	
	sentence. Choose the option with proper sequence.	
	Before presenting a paper it is advisable to choose a subject of	
	your interest	
	(P) When presenting your paper, speak distinctly and pleasantly.	
	(Q) Next, 'read up' about it, before you write the paper.	
	(R) Then prior to writing make a clear plan to ensure orderly	
	presentation.	
	(S) While reading, you should make notes	
	In this way, the interest of the listeners is enhanced and you are	
	appreciated.	
	The correct sequence should be.	
	(a) RSQP (b) PQRS (c) QSRP (d) SQRP	
69.	What shall come in place of the blank in the given analogy?	
	SCRIBBLE : WRITE :: STAMMER:	
	(a) walk (b) play (c) dance (d) speak	
70.	Based on the given analogies, find the odd one out.	
	(a) Book : Author (b) Art : Artist	
	(c) Invention : Scientist (d) Patients : Doctors	
71.	Select the most appropriate meaning of the given	
	phrase/idiom.	
	Cross your fingers	
	(a) Do nothing and hope that everything falls in its place	
	automatically	
	(b) To express disapproval or dissatisfaction	
	(c) Tell others that you will agree to something only on certain	
	conditions	
	(d) To hope that things will happen in the way that you want	
	them to be.	
72.	Select the most appropriate meaning of the given	
14.	phrase/idiom.	
	Be out of order	
	(a) Some goods which are out of stock	
	(b) Do something against the court ruling	
	(c) A device not working properly or at all	
	(d) things kept in an organised manner	
	(a) amigo hept in an organised mainter	

73.	Write a descriptive paragraph with the help of given picture. Give it a suitable title.
	(80-100 words) (3 Marks)
	Merchian Street

Rough Work
