#### **GENERAL INSTRUCTIONS:**

- All questions are compulsory.
- Section A contains 20 questions (from 1-20) of Mathematics.
- Section B contains 25 questions (from 21-45) of Science.
- Section C contains 10 questions (from 46-55) of Social Science.
- Section D contains 20 questions (from 56-75) of English.

| Mathematics | Science | So. Science | English | <b>OBTAINED MARKS</b> |
|-------------|---------|-------------|---------|-----------------------|
| (20)        | (25)    | (10)        | (20)    | (75)                  |

|       | Section-A  |                  |  |  |  |
|-------|--|------------------|--|--|--|
|       | Mathematics  |                  |  |  |  |
| Q.No. | Questions  | Answers          |  |  |  |
|       | Answer the Following Questions.  |                  |  |  |  |
| 1.    | The value of $\left(\frac{5}{4}\right) - \left(\frac{8}{3}\right)$ is:   | $-\frac{17}{12}$ |  |  |  |
| 2.    | The perimeter of the rectangle is 20 cm. If the length of the rectangle is 6 cm, then its breadth will be (in cm):   | 4 cm             |  |  |  |
| 3.    | In a quadrilateral ABCD, the measure of the three<br>angles A, B and C of the quadrilateral are 110°, 70°<br>and 80°, respectively. Then the measure of the fourth<br>angle is | 100°             |  |  |  |
| 4.    | The value of $(11-8) \times 3 + 7 + 27 - 3$ is   | 40               |  |  |  |

| 5.  | 2   | 1  |
|-----|---|--|
| 0.  | What should be subtracted from $-\frac{2}{3}$ to get $-1$                     | $\frac{1}{3}$                            |
| 6.  | The cube root of -729 is  | -9                                       |
| 7.  | The cost of 1 litre of petrol is Rs. $92\frac{2}{7}$ . Find the cost of       | $\frac{4845}{7} = 692\frac{1}{7}$        |
|     | $7\frac{1}{2}$ litre of petrol.   |  |
| 8.  | The cost of a ticket for show is Rs. 250. Ayush got a                         | Rs. 200                                  |
|     | 20% discount on buying a ticket through online                                |  |
|     | booking. How many rupees did Ayush pay for the                                |  |
|     | ticket.   |  |
| 9.  | The volume of a cuboid with length, breadth and                               | $105x^{7}$                               |
|     | height as $5x, 3x^2$ and $7x^4$ respectively is                               |  |
| 10. | The area of a rhombus whose diagonals are of length                           | 41 <i>cm</i> <sup>2</sup>                |
|     | 10 cm and 8.2 cm is   |  |
| 11. | The value of $(3^{-1} + 4^{-1} + 5^{-1})^0$ is                                | 1  |
| 12. | Manvi types 200 words in 30 minutes. How many                                 | 80                                       |
|     | words will she type in 12 minutes?  |  |
| 13. | The quotient of $7 m^2 n$ and $(-14 mn)$ is                                   | $-\frac{1}{2}m = -\frac{7}{14}m = -0.5m$ |
| 14. | Find the factors of $3m^2 + 9m + 6$ .   | 3(m+2)(m+1) = (3m+6)(m+1)                |
|     |   | =(m+2)(3m+3)                             |
| 15. | If the length and breadth of a rectangle are 15cm and                         | $165 cm^2$                               |
|     | 11cm, respectively, then its area is  |  |
| 16. | <b>Statement 1 (S<sub>1</sub>):</b> The area of a triangle with base <i>b</i> | (d) Both $S_1$ and $S_2$ are incorrect.  |
|     | and alitude <i>h</i> is $\frac{1}{3}bh$                                       |  |
|     | <b>Statement 2 (S<sub>2</sub>):</b> The area of a triangle is defined as      |  |
|     | the total space occupied by the three sides of a triange                      |  |
|     | in a 2-dimensional plane  |  |
|     | (a) Only $S_1$ is correct.  |  |
|     | (b) Only $S_2$ is correct.  |  |
|     | (c) Both $S_1$ and $S_2$ are correct.   |  |
|     | (d) Both $S_1$ and $S_2$ are incorrect.                                       |  |
|     |   |  |

| 17. | <b>Statement 1 (S1):</b> The diagonals of a square are equal          | (a) Only $S_1$ is correct.         |
|-----|---|------------------------------------|
|     | to each other.  |                                    |
|     | <b>Statement 2 (S<sub>2</sub>):</b> Only opposite sides of square are |                                    |
|     | equal.  |                                    |
|     | (a) Only S <sub>1</sub> is correct.                                   |                                    |
|     | (b) Only $S_2$ is correct.  |                                    |
|     | (c) Both $S_1$ and $S_2$ are correct.                                 |                                    |
|     | (d) Both $S_1$ and $S_2$ are incorrect.                               |                                    |
|     | Case study (Q.18 – Q.20)  |                                    |
|     | Based on the given information, answer the following                  | auestions.                         |
|     | It is common that government revises fares from time to               |                                    |
|     | as taxes, economy and inflation, for various vehicles like            |                                    |
|     | etc. The auto and Taxi charge in a city comprise of fi                |                                    |
|     | distance covered. Few situations are given below in th                | e form questions. Find the correct |
|     | option.   |                                    |
| 18. | If the fixed charge in a city is Rs. <i>x</i> and charge per km       | x + 50 = 60                        |
|     | is Rs. 5 and total fare is Rs. 60 then find the linear                | OR                                 |
|     | equation for the journey of 10 km.                                    | x = 10                             |
| 19. | If in a city a person has to pay Rs. 110 for a journey of             | Rs. 6                              |
|     | 15 km and fixed charge is Rs. 20 then what is the                     |                                    |
|     | charge per km   |                                    |
| 20. | According to the given equation, $2x + 17 = 85$ , if Rs.              | <i>x</i> = 34                      |
|     | 17 is the fixed charge and the total fare is Rs. 85 for a             |                                    |
|     | journey of 2 km then what is the charge per kilometre?                |                                    |
|     | Section-B   |                                    |
|     | Science           Answer the following:                               |                                    |
| 21. | Name the tool (or implement) used in the traditional                  | Sickle                             |
|     | harvesting of crops.  |                                    |
| 22. | Name the hormone that is released by testes at the                    | Testosterone                       |
|     | onset of puberty.   |                                    |
| 23. | Write the term that defines the amount of heat energy                 | Calorific value                    |
|     | produced on complete combustion of 1Kg of a fuel.                     |                                    |
| 24. | Acidified water is electrolyzed by using carbon                       | Oxygen                             |
|     | electrodes.   |                                    |
|     | What is produced at positive carbon electrode?                        |                                    |
| 25. | When a force of 5N is applied on a surface the pressure               | $100 \text{ cm}^2$                 |
|     |   |                                    |
|     | produced is of 500 Pa. What will be the area of the                   |                                    |

|   | Fill in the blank.   |   |  |  |
|---|--|---|--|--|
| 26.   | The number of images formed by mirrors placed at an  | Kaleidoscope  |  |  |
|   | angle to one another to make numerous beautiful  |   |  |  |
|   | pattern is used in a   |   |  |  |
| 27.   | is a special kind of preparation (or medicine)   | Antibiotics   |  |  |
|   | which provides immunity against a particular disease.  |   |  |  |
| 28.   | Synthetic fibres are synthesized from raw material   | Polymers  |  |  |
|   | called   |   |  |  |
| 29.   | Loudness is determined by the of vibration.  | Amplitude   |  |  |
| 30. The north pole of a magnet the north pole of Repe                       |  | Repels  |  |  |
|   | another magnet   |   |  |  |
|   | Case study (Q.31 - Q.33)   |   |  |  |
|   | Based on the given information, answer the following   | questions.  |  |  |
|   | Sita and her mother reached a jewellery shop to purchase some ornaments. She liked a   |   |  |  |
|   | necklace very much but her mother told her not to purchase it because it is not real gold.   |   |  |  |
|   | When she checked the information tag, it was written that 1gm gold. The necklace was   |   |  |  |
|   | quite big and heavy. She was surprised to see it and asked about it. The salesman  |   |  |  |
|   | explained that it is a gold-plated necklace. Then Sita checked that the process of depositing  |   |  |  |
|   | a layer of any desired metal on another material by means of electricity is called   |   |  |  |
|   | electroplating. It is one of the most common applications of the chemical effects of electric  |   |  |  |
|   | current. Nowadays, people prefer to buy gold-plated jewellery, similarly, iron articles are  |   |  |  |
|   | often coated with zinc or chromium to protect them from rusting and corrosion.   |   |  |  |
| 31.   | The process of depositing a layer of any desired metal   | Electroplating  |  |  |
|   |  |   |  |  |
|   | on another material by means of electricity is called as   |   |  |  |

|------|-------|---------|---------|

Based on the given information, answer the following questions.

Being a plant of the temperate zones, woad was more easily available in Europe. It was grown in northern Italy, southern France and parts of Germany and Britain. Worried by the competition from indigo, woad producers in Europe pressurised their governments to ban the import of indigo. Cloth dyers, however, preferred indigo as a dye. Indigo produced a rich blue colour, where as the dye from woad was pale and dull. By the seventeenth century, European cloth producers persuaded their governments to relax the ban on indigo imports. The French began cultivating indigo in St. Domingue in the Caribbean islands, the Portuguese in Brazil, the English in Jamaica and the Spanish in Venezuela. Indigo plantations also came up in many parts of North America.

| 53. | Why did cloth dyer prefer indigo in place of woad?   | Indigo produced rich blue colour |
|-----|--|----------------------------------|
| 54. | European cloth producers persuaded their government  | True                             |
|     | to relax the ban on indigo import. This statement is |                                  |
|     | true or false.                                       |                                  |
| 55. | Where does the Portuguese cultivated indigo?         | Brazil                           |

## Read the passage given below and choose the correct option:

It's believed that Aryabhata was born in 476 AD at Kusumpur, Bihar. He was a versed and intelligent person, so he had many disciples. Varaha Mihir was one of his most famous disciples. When he was twenty-three years old, he wrote a book called Aryabhatiya. He completed his education at Nalanda Unversity. He was also the Vice-Chancellor of the University. On the principles of Aryabhata or influenced by him, Bhaskar I wrote a book called Tika. He also wrote many other books like Mahabhaskariya, Laghubhaskariya and Bhashya. Aryabhata was a great Mathematician of ancient times. He made his contribution not only in the field of mathematics but also in astronomy. It was he who told that the earth rotates on its axis. Apart from this, he also represented the Pi value more accurately. In modern mathematics, the Pi value is considered to be approximately 3.14159. He also discovered Zero.

## Based on your understanding of the passage, choose the appropriate option:

| 56. | The book 'Aryabhatiya' w  | as written by Aryabhata when he    | (b) Twenty-three years old |
|-----|---------------------------|------------------------------------|----------------------------|
|     | was:                      | 5 5                                |                            |
|     | (a) Twenty-five years old | (b) Twenty-three years old         |                            |
|     | (c) Twenty-two years old  | (d) Twenty-one year old            |                            |
| 57. | In modern Mathematics, w  | hat's the approximate value of Pi? | (d) 3.14159                |
|     | (a) 3.14216               | (b) 3.14630                        |                            |
|     | (c) 3.14597               | (d) 3.14159                        |                            |

| 58. | Who was th  | e most famous   | disciple of A         | ryabhata?            | (a) Varaha Mihir |  |  |  |  |
